Dear Mr Joubert

re: BTV Product Proposal

Thank you for your letter of 08 August which I have read with great interest.

It is most encouraging to see the entrepreneurial spirit that exists in the Eastern Cape and which is being employed to try to address motor car affordability.

We have been approached with similar low-investment concepts (although not similar product proposals) in the past.

We do not plan to pursue this type of venture as a Volkswagen project while a component supply might be viewed in a different light.

I have passed on your letter to my Product Engineering Director, Mr August Jukel, who has been involved in such projects and who will contact you to discuss this matter further.

I thank you for having approached Volkswagen of South Africa and wish you success with your venture.

Kind regards  
Yours sincerely

PETER M SEARLE  
CHAIRMAN and MANAGING DIRECTOR
